

AllergyZone™

www.allergyzone.com

Cleaner Air means a healthier home. Our current product line has been scientifically developed to help you create your own personal breathing zone, improving your air quality and enabling you to breathe easier.

BreathXchange

- Effectively prevents asthma triggered by cold, dry air.
- Increases efficiency while exercising outdoors; lungs exposed to cold air lose 12% of their capacity.
- Clinically proven to keep your hands and feet warmer.
